## **Article II**

### **Access and Release Time**

02.01 UVMHC retains the right to enforce reasonable access rules and regulations.

02.02 Designated Union representatives may conduct Union business at UVMHC in non-restricted areas, so long as the business does not interfere with patient care, UVMHC operations, or the assigned duties and responsibilities of the Residents.

02.03 The Union will furnish UVMHC with a written list of all designated Union representatives who are authorized by the Union to conduct Union business. This list shall be maintained in a timely manner and any changes, additions, or deletions to the list shall be made in writing to the UVMHC Labor Relations Manager or their designee.

02.04 The Union may reserve designated general purpose meeting rooms to hold events such as, but not limited to, Union meetings with Residents, ratification votes, delegation elections, and grievance investigations. Reservation requests shall be submitted in advance to the UVMHC Labor Relations Manager or their designee. Requests shall not be unreasonably

denied and room reservations shall not be unreasonably canceled. If a reserved room is canceled, UVMMC will act in good faith to provide a comparable alternative.

2.05 Union meetings at UVMMC will not be open to employees who are not Residents and the Union will not conduct any business while onsite at UVMMC that addresses the organizing of additional bargaining units, the expansion of the current unit, or strike action.

#### 02.06 Bulletin Boards

The bulletin board will have a protective enclosure that may only be accessed by key. Keys may be held only by the Union. The Union will visibly identify the bulletin board as space for the Union and will include an express disclaimer of UVMMC's responsibility for any posted item. The Union will have sole discretion over the content displayed in the bulletin board, except that no item may violate law, be personally derogatory, or be demonstrably untrue.

02.07 Residents shall only engage in Union-related activities, consistent with applicable law, when they are not engaged in clinical care activities and operations, scheduled educational activities, or scheduled administrative time, and in non-restricted and non-patient care areas.

During this release time, Residents may elect to use Paid Time Off or take unpaid time.

#### 2.10 CIR Executive Committee

Upon advance notice of at least sixty (60) days, UVMMC will make reasonable efforts to not schedule any Union member elected or appointed to CIR's Executive Committee for duty so that they can attend the aforementioned Committee's quarterly meetings.

2.11 Upon reasonable advance notice, any request for release time to conduct or participate in Union business or sponsored activities shall not be unreasonably denied.

### **Article III Ancillary Duties**

03.01 Consistent with ACGME requirements, UVMMC acknowledges routine reliance on Residents to fulfill non-physician obligations increases work compression for Residents and does not provide an optimal educational experience. Non-physician obligations are those duties which in most institutions are performed by nursing and allied health professionals, transport services, or clerical staff. Examples of such obligations include transport of patients from their units for procedures elsewhere in the hospital; routine blood drawing for laboratory tests; routine monitoring of patients when off the unit; and clerical duties, such as scheduling. While it is understood Residents may be expected to do any of these things on occasion when the need arises, the learning objectives of Resident programs must be accomplished without excessive reliance on Residents to fulfill non-physician obligations.

03.02 If ACGME defines and requires patient caps for any program, UVMMC will adhere to those patient caps to the extent required by ACGME. At the request of either party, patient caps and Resident work load will be a topic of discussion during the Labor Management meeting.

03.03 All programs will determine their own call schedules, at the sole discretion of the program director or their designee.

03.04 A backup risk plan for each program will be established by program directors in consultation with Residents to cover absences by Residents within the program. At the request of either party, back up risk plans will be a topic of discussion during the Labor Management meeting.

03.05 UVMMC will adhere to ACGME requirements on Residents being instructed and supervised by faculty members.

In the event that any provision of this Agreement is declared illegal, invalid, void or unenforceable, the parties agree to meet promptly upon the request of the other party in an attempt to reach an agreement on a substitute provision.

**Article V**

  - I. To the extent practicable, lactation rooms or other comparable space shall be provided in proximity to the work area that is appropriate for safe patient care.

- II. If no such space exists in proximity to the employee's work area that is appropriate for safe patient care, UVMHC will designate an appropriate temporary space, which has suitable privacy and security, for the purpose of expressing and storing breast milk.

H. UVMHC, as part of its commitment to the reproductive freedom of its employees and patients, agrees to provide training for Residents to gain the skills to provide a full spectrum of reproductive care as required by the Resident's field of training. UVMHC will maintain a policy by which Residents may be excused from participating in reproductive care or treatment involving pregnancy termination, sterilization procedures, or reproductive technologies, and the care or treatment conflicts with the employee's cultural values, ethics, religious beliefs, or moral convictions, unless the emergency medical needs of a patient overrides the personal beliefs of the Resident.

Residents may also establish a wellbeing committee that UVMMC will support with an annual budget of \$10,000 each academic year, to be spent on wellness items or events in compliance with any UVMMC and GME policies and procedures concerning expenditures. UVMMC's exercise of any management function or responsibility in a particular manner shall not preclude UVMMC from exercising the same in any other manner which does not expressly violate this Agreement. The exercise of the functions and responsibilities set forth in this Article shall not be subject to the grievance and arbitration provisions of this Agreement, unless such actions violate the express terms of this Agreement.

10.02 The management functions and responsibilities of UVMMC include, but are not limited to, the following rights:

## **Article XI**

### **Leaves**

11.01           This Article sets forth the general criteria for various leaves of absence, with or without pay. If applicable State or federal law requires UVMMC to offer any leave in a manner that would be more generous to employees than is currently provided in this Article, UVMMC will comply with the law.

11.02           Leave for Military Service:   Residents who are called to military service and whose normal weekly pay exceeds any military service pay will be offered a pay differential. Eligible employees are required to submit a copy of their military leave earnings statement for the covered period.

For up to thirty (30) days of military leave, health insurance coverage will continue. For thirty-one (31) or more days, Residents may elect to continue health coverage with UVMMC at their own cost for a period of up to two (2) years.

Absence from the training program to meet military service obligations must be communicated to the program director and/or department with as much notice as possible. Residents who leave employment to perform military service will be entitled to reemployment consistent with the Uniformed Services Employment and Reemployment Rights Act (USERRA).

11.03           Leave for Jury Duty: A Resident called to Jury Duty will receive regular compensation for time served. The program director must be notified as soon as a jury summons is received. Only the court, pursuant to the procedure outlined in the Jury Summons Notice, can grant deferment or excused absence from jury service. However, a Resident summoned for jury duty may request to be excused by virtue of participation in a graduate medical education program. The Resident may request from UVMHC a letter verifying the Resident's participation in the program to be submitted to the court. If the needs of the court do not require a full workday to fulfill jury obligations, the Resident may be expected to contact their program director about returning to work.

#### 11.04           Family and Medical Leave Act (FMLA)

##### 1.           Reasons for Leave

In accordance with UVMHC policy on the Family and Medical Leave Act (FMLA) and applicable state leave laws, an eligible Resident will be granted up to twelve (12) weeks of unpaid leave in accordance with UVMHC policy on FMLA, in a rolling twelve (12) month period. To be eligible for FMLA leave, a Resident must be employed at least twelve (12) months and have worked a minimum of 1,250 hours during the previous twelve (12) month period.

FMLA will be granted to an eligible Resident for the following reasons:

- a.           The Resident's own serious health condition;
- b.           To care for a family member (child, stepchild or ward who lives with the Resident, foster child, parent, spouse, or parent of the employee's spouse) who has a serious health condition;
- c.           Parental leave to bond with a Resident's newborn or a child placed with the Resident for adoption or foster care;

##### 2.           Unpaid Leave

FMLA leave is unpaid, unless the Resident is eligible for paid birthing or caregiver leave, or the Resident elects to use their available paid time off to run concurrently with FMLA leave.

##### 3.           Intermittent Leave

FMLA leave may be taken intermittently during FMLA leave for a Resident's own serious health condition or to care for a family member with a serious health condition. At the discretion of UVMHC, intermittent FMLA leave may be taken for the birth, adoption, or foster placement of a child.

##### 4.           Benefits Continuation

During FMLA leave, UVMMC shall continue its contribution for the Resident's insurance coverage benefits as if the Resident was working.

5. Additional Leave

- a. Military Caregiver Leave: As provided under the FMLA, an eligible Resident who is required to care for a family member or "next of kin" who is a "covered service member" undergoing medical treatment, recuperation or therapy for a serious injury or illness shall be granted FMLA leave up to twenty-six (26) workweeks.
- b. Qualifying Exigency Leave: As provided under the FMLA, an eligible Resident who is the spouse, child, or parent of a military member may use FMLA leave to attend to any "qualifying exigency." Qualifying exigencies may include attending certain military events, arranging for alternative childcare, addressing certain financial and legal arrangements, attending certain counseling sessions, and attending post-deployment reintegration briefings.
- c. Supplemental Family Leave: In accordance with UVMMC policy, Residents eligible for FMLA leave who require more than their 12-week leave entitlement may be granted an additional four (4) weeks of unpaid leave during a rolling 12-month period. This supplemental family leave shall be requested and granted under the same provisions applicable to FMLA leave.
- d. Short-Term Family Leave: Under the Vermont Parental and Family Leave Act (VPFLA), Residents eligible for FMLA leave may also be granted unpaid leave up to four (4) hours in any thirty (30) day period, not to exceed twenty-four (24) hours of leave within a rolling 12-month period. Short-term family leave may be granted for reasons set forth under the VPFLA, including: participation in school activities for a Resident's child, stepchild, foster child, or ward; attending an immediate family member's routine medical or dental appointments, or other appointments for the family member's care or well-being; or to respond to a medical emergency involving a Resident's immediate family member.

6. Notice and Certification

- a. If the need for any leave taken under this Section is foreseeable, the Resident shall give UVMMC notice at least ninety (90) calendar days in advance or as soon as possible thereafter. If the need for leave is not foreseeable, the employee shall give UVMMC notice as soon as practicable.
- b. Requests for leave must include a written request from the Resident indicating the start and anticipated return dates and, if applicable, any certification documents requested by UVMMC or its third-party leave administrator. Failure

to provide required certification may result in delay of the leave until the required certification is received.

- c. Approved requests for leave must include the start date and return to work date, any anticipated requirements for additional training time, and conditions for return to work as indicated.

#### 11.05 Birthing and Caregiver Leave

- A. Birthing Leave: UVMHC shall provide up to six (6) weeks of parental leave with pay to a birthing person in the event of vaginal birth, or up to eight (8) weeks in the event of a c section or birth with complications requiring additional leave.

The intent is that the six (6) or eight (8) weeks of leave is the maximum amount of birthing leave per pregnancy. For example, a Resident having twins would not receive twelve (12) workweeks. Paid birthing leave shall run concurrently with any FMLA leave.

At any point within the two (2) weeks prior to a pregnant Resident's due date, the Resident may also take ante partum leave with pay. Caregiver leave may also be taken in addition to birthing leave.

- B. Caregiver/Parental Leave: UVMHC shall provide up to seven (7) weeks of caregiver leave with pay once during each Resident's training program for the same caregiver leave event. Caregiver leave may be granted to care for a Resident's newborn or a child placed with the Resident for adoption or foster care within twelve (12) months of the birth or placement, or to care for a family member (child, stepchild or ward who lives with the Resident, foster child, parent, spouse, or parent of the employee's spouse) who has a serious health condition. Paid caregiver leave shall run concurrently with any FMLA leave.

#### 11.06 Bereavement Leave:

A Resident shall receive up to three (3) paid days for bereavement purposes in the event of the death of the Resident's spouse, parent, child, sibling, grandparent, grandchild, and in-law and step relatives of the relationships listed herein. This provision also covers other related persons residing in the Resident's household and requests for exceptions for other close friends, family, or chosen family members may be granted at the discretion of UVMHC. In addition to any eligible bereavement leave, Residents shall be permitted to use paid sick leave and/or paid vacation for funeral attendance/bereavement.

#### 11.07 Paid Time Off

- a. Residents are entitled to twenty (20) work days (Monday-Friday) of vacation time per academic year and, when a Resident takes a full week of vacation, they will be entitled to take off the weekend (Saturday and Sunday) either before or after the week. Residents are also entitled to five (5) sick or personal days each

academic year. Residents will not be shamed or intimidated for taking their vacation, sick, or personal days. Requests for vacation, or sick or personal days will not be unreasonably denied.

- b. Paid time off is granted annually and does not roll over to a new academic year. Unused paid time off will not rollover to the next academic year. Residents will not be reimbursed for any unused time at the end of each academic year or upon leaving or graduating from their training program.
- c. Residents are not required to use any portion of their annual paid time off to sit for exams required to maintain their status in the program nor for recognized UVMMC holidays.
- d. Paid time off shall be scheduled by each program's scheduling policies and practices, in compliance with ACGME or other certifying board requirements.
- e. In scheduling paid time off for vacation, programs should take into account any requests for specific dates or blocks of time by individual Residents, but all parties understand that it may not always be possible to accommodate a Resident's requests. In programs where vacation is predetermined, the program may develop a practice to solicit the Residents as to the vacation schedule that best fits the Resident's needs. Programs will work with Residents to allow them to change pre-determined vacation time if it does not meet the Resident's needs.
- f. Residents using paid time off for sick leave will not be required to find their own coverage.
- g. During the appropriate year of training, Residents are further allowed at least five (5) work days to participate in post graduate interviews. Additional interview days may be granted at the discretion of the program director. Interview days granted are not transferable to vacation or sick/personal days.

11.08 The parties acknowledge taking any leave under this Article may require that a Resident make up time if required for graduation, for academic reasons or board certification. The program director will work with the Resident to minimize any required extension of training.

## **Article XII**

### **Resident Scheduling**

12.01 In accordance with ACGME requirements, Residents may attend medical, mental health, and dental appointments during work hours. For non-urgent appointments, schedule arrangements must be planned in advance with the Resident's program director.

12.02 All Residents will be guaranteed a minimum of one day in seven free from patient care and educational obligations, averaged over four weeks. There will be no required events, training, or work of any type for Residents on their scheduled day off.

12.03 The Residents scheduled day off will not be unreasonably canceled or changed due to the Resident taking a vacation day, sick day, personal day, or in the event of a Holiday. In the event that the Resident's day off is canceled, the Resident will receive another day off within the same academic year.

12.04 In the event of major systematic program changes made by UVMHC to the Resident's scheduling of rotations, each Program Director will make a good faith effort to work with the Residents and allow them to change a rotation that they have already completed and there is no academic need for them to repeat, so that they are not being used as a place filler in an already completed rotation, which would delay them in completing Rotations that are needed to complete their Residency, or prevent/delay them from working on their specialization in later Post Graduate Years. Residents will perform rotations that are needed for the care of UVMHC patients.

### **Article XIII**

#### **Corrective Action**

13.01 Academic and clinical misconduct: Decisions or judgments by UVMHC related to all academic matters, including, but not limited to, determinations that a Resident has failed to satisfy any requirements of their training program, such as clinical competence and professional standards of conduct related to a Resident's acquisition of core competencies, as well as the development of the clinical skills necessary to function as a physician in the Resident's medical specialty, shall not be subject to review under the grievance and arbitration procedure set forth in this Agreement.

13.02 For non-academic and non-clinical misconduct, Residents will not be subject to corrective action without due process and for just cause. ### **Grievance and Arbitration**

#### **14.01           DEFINITIONS**

1.       Grievance: A grievance is defined as a claim that the employer has violated a specific provision of this Agreement during the term of this Agreement.
2.       Process: All grievances will be filed with the UVMMC Labor Relations Manager or their designee.
3.       Eligibility: A grievance may be raised through this procedure by either the Union or UVMMC.
4.       Consolidation: Grievances brought by or related to two or more bargaining unit employees, and multiple grievances by or related to the same employee, which concern the same incident, issue, or course of conduct, may be consolidated for the purposes of this procedure upon mutual agreement of UVMMC and the Union, provided that the time limits described in this article shall not be shortened for any grievance because of the consolidation of that grievance with other grievances. Notwithstanding the foregoing, the Union can on its own bring a “class” grievance on behalf of two or more bargaining unit members.
5.       Representation: A Resident shall have the right to a Union representative at all steps of the grievance and arbitration procedure.

#### **14.02           PROCEDURE**

Step 1: Informal Review. As soon as practicable, the parties shall informally discuss the grievance. The informal discussion on a grievance related to a Resident or Residents within the same training program will involve the Program Director. All parties shall attempt a resolution of the matter. If the grievance is not resolved through informal discussions, or if the discussion does not take place due to time constraints the Union or UVMMC may file a formal grievance as set forth below.

Step 2: A formal grievance must be filed in writing. The Union will file the grievance with the UVMMC Labor Relations Manager or their designee. UVMMC will file the grievance with the Union’s designee. The written grievance must be filed within thirty (30) calendar days after the date on which the filing party knew or could have reasonably been expected to know of the event or action which gave rise to the grievance. Formal grievances should in general set forth:

- a.       The specific section and provisions of the Agreement alleged to have been violated;
- b.       The action grieved and how it violated the above mentioned provisions;
- c.       The date of the occurrence of the alleged violations; and

- d. The remedy requested.

Upon request by the filing party, the parties shall meet in a reasonable time to discuss the grievance. Within fifteen (15) calendar days after the meeting is held, a written response will be issued.

Step 3: If the grievance is not resolved at Step 2, the grievance may be appealed in writing. The Union will file an appeal with the UVMCC Labor Relations Manager or their designee. UVMCC will file an appeal with the Union's designee. The written appeal must be filed within fifteen (15) calendar days of the date on which the written response at Step 2 was issued.

- a. Upon request by the filing party, the parties shall meet in a reasonable time to discuss the appeal. The Step 3 meeting may be waived by mutual agreement and confirmation in writing by either party.
- b. Decision: A written decision on the appeal shall be issued within fifteen(15) calendar days following the Step 3 meeting or agreement to waive the Step 3 meeting. The decision may be appealed to arbitration as outlined below within thirty (30) calendar days of the date on which the decision was issued.
- c. Electronic Filing: All notices, filings, and written responses required by this Article may be sent electronically, by email.

#### 14.03 TIME LIMITS

Time limits set forth in this Article may be extended by mutual agreement of the parties in writing in advance of the expiration of the time limits. Deadlines which fall on a weekend or holiday will be automatically extended to the next weekday. If a formal grievance is not appealed to the subsequent step of the procedure within applicable time limits and an extension has not been agreed to in advance, the grievance will be considered settled on the basis of the written response. Failure to reply to a grievance within the time limits specified automatically grants the filing party the right to process the grievance to the next step of the grievance procedure.

#### 14.04 ARBITRATION PROCESS

1. A request for arbitration may be made by either party after exhaustion of the grievance procedure. The request for arbitration must be filed with the other party within thirty (30) calendar days of the Step 3 grievance decision being issued, or the step 3 meeting being waived by the parties.
2. The parties agree to use the American Arbitration Association (AAA) procedures for any arbitration under this Agreement or, by mutual agreement the parties may elect to use different procedures or an alternative process for arbitrator selection.

3. The arbitrator's fees shall be borne equally by the parties. Either party may request stenographic services and the fees shall be borne equally by the parties, unless the parties agree otherwise in advance. Each side shall pay the cost of preparing its own case, including attorneys' fees.

4. Unless there is an agreement by both parties to modify the scope of the hearing, the issue(s) to be heard by the arbitrator shall solely and in its entirety be restricted to the issue(s) presented at Step 2. Issues or allegations which were known or should have been known to either party but not introduced by the Step 2 process shall not be introduced by either party at the arbitration hearing. Evidence concerning the issues or allegations presented at Step 2 may be presented during the Arbitration process regardless of when such evidence was made aware to the parties.

5. The arbitrator's authority shall be limited to determining whether the arbitrable provisions of this Agreement have been violated and to ordering corresponding remedies. The arbitrator shall not have jurisdiction or authority to add to, amend, modify, nullify, or ignore in any way the provisions of this Agreement. To the extent UVMMC's action is based upon academic or clinical judgment, the arbitrator shall have no authority or jurisdiction to substitute their judgment for that of UVMMC and its agents.

The expense of service and appearance fees, if any, shall be borne entirely by the party requesting the subpoena of witnesses and each party shall, in advance of the hearing date, inform the other party of the identity of witnesses it subpoenaed. The arbitrator shall be the sole judge of the relevancy and materiality of the evidence and testimony offered. The arbitrator may receive and consider evidence but shall give appropriate weight to any objections made. All documents to be considered by the arbitrator shall be filed at the hearing, or within the post-hearing time lines agreed to by the parties during the hearing.

#### 14.05 Decision and Remedy

The decision of the arbitrator shall be final and binding on the grievant, UVMMC and the Union.

UVMCM agrees that whenever a Resident volunteers for internal moonlighting opportunities they will receive additional pay of seventy-five dollars (\$75) per hour. The parties further agree that no Resident will be pressured to accept moonlighting opportunities. The parties agree this is minimum moonlighting pay and that UVMCM, at its sole discretion, may offer moonlighting opportunities at a pay rate higher than that set forth in this Agreement, provided that such increase is offered equally to all Residents who agree to work that moonlighting opportunity.

31.09 If a Resident is scheduled to be off, is not scheduled as backup or jeopardy, and is asked to work with less than forty-eight hours' notice, the Resident will be paid a stipend of two hundred dollars (\$200) for that work.

**Side Letter – Called-In/Not-on-Call Ad Hoc Committee**

UVMHC and the Union agree to create an ad hoc committee to negotiate in good faith the Resident concerns arising from Residents who are scheduled to be off, are not scheduled as backup or jeopardy, and are asked to work with limited notice ("Called-In/Not-on-Call"). The ad hoc committee shall be composed of a minimum of three (3) UVMHC management/attending representatives, and a minimum of three (3) Resident representatives selected by the Union, and the assigned CIR staff representative. Either party may request additional staff to attend as needed to advance the discussion.
